Alternative Wings of Fire titles

Moderator Sarah E : admin

Have you ever read a book from a hundred or more years ago, where the chapter titles are super long and something like, “In which Clay escapes from under the mountain to save his friends only to find himself in more danger from a seriously deranged SkyWing queen”?

I love those chapter titles. Sure, they’re a little spoiler-y, but I actually enjoy spoiler! I like to see how characters get where they’re going, and sometimes I enjoy knowing where they’ll end up.

The titles of the Wings of Fire series don’t give too much away -- they’re more like hints than spoilers, which I love. But if you were going to name a Wings of Fire book so a reader knew EXACTLY what they were getting into, what would you call it?

(Make sure to put the real title/# at the top of your post, so people avoiding spoilers for that book can skip it!)

Currently inactive but counting down the days till....

Wings of Fire Book #12: The Hive Queen (December 26, 2018!!!)!

#1: children break out of prison, get put in prison again (but it's a different prison!), busts out and then big protagonist abandons his family moments after meeting them (the dragonet prophecy)
#2: sass protagonist finds family, screams at small child, protects a baby, gets thrown in prison again but then busts out to see everyone is dying (the lost heir)
#3: big colorful protagonist returns to her home only to find everyone is lazy and her family abandoned her, later gets thrown in prison for, what, the 4th time? before busting out AGAIN and dethroning people (the hidden kingdom)
#4: definition-of-nerd-cliche protagonist gets kidnapped, witnesses murder, almost gets killed himself, witnesses murder again, breaks out of prison *AGAIN,* confesses his love like an anime character and goes hecking blind (the dark secret)
#5: happy protagonist gets kidnapped as well, but busts out shortly after by writing stuff on a weird piece of glass before meeting her mom and finding out she's a hybrid and is not bothered in the slightest by this. then gets thrown in prison *for the 5th time* and busts out *again* before witnessing double murder. also her mom becomes queen despite not being royalty (the brightest night)
#6: anime protagonist has special powers and hears voices in her head, keeps secret from tribe and goes to school keeping her secret from friends. she witnesses double murder and helps a criminal escape from danger (and the criminal's brother follows her too) before finally telling her friends she's ~magical~ before getting rejected because magic powers are bad now (moon rising)
#7: anger protagonist goes on a ~magical journey~ with friends + crush to find his missing brother only to find out he was magically transformed into some weird anime girl (not the protagonist from last book, mind you). then he returns home and abandons his family for a 2000-year-old nightwing (winter turning)
#8: fire protagonist goes on another ~magical journey~ but with only one friend, visits her friends' girlfriend in the hospital, finds her dad who hypnotizes her into having a ~big lesbian crush~ on ~the original evil queen~ (there are a lot of evil queens in this series) before getting un-hypnotized and babysits a child who's mother is slaughtering his grandma. once it's all done protagonist gets to go home but then awakens an evil legend guy (escaping peril)
#9: magic protagonist hides from evil legend guy with a stick, makes his sister wake up his girlfriend, goes on a magical adventure or two, but not before going into hand-to-hand combat with his sister! after he fights his sister, he gets warped into a magic room, reveals himself to save his deranged sister and gets thrown into prison for the trillionth time this series (talons of power)
#10: terrible book do not read (darkness of dragons)
#11: (white ink to avoid spoilers)

Yes

#11 (The Lost Continent) GIGANTIC SPOILER ALERT: In which Blue's sister is a flamesilk and all the HiveWings are mind-controlled by their queen who is a terrible dragon and should be shipped with Darkstalker because she's really that horrible and Blue escapes from dragons trying to capture him (everyone. Gets. Captured. In. This. Series. I swear) and finds a pretty HiveWing named Cricket who he has a crush on and they escape together and find Blue's sister's boyfriend and breaks him out of captivity (ARRGGBNHGBNJHGHBJHGYH) and they escape the hive and find SCAVENGERS and Cricket calls them reading monkeys (I am INSULTED!) and they almost get captured and then they sneak into a greenhouse and find three LeafWings who are supposed to be extinct and Blue, Cricket, and Sundew the LeafWing steal the Book of Clearsight and then find out it's fake and Blue gets captured and then he meets his father and his sister's Metamorphosis is over because it's been five days already and then they escape on LITERALLY THEIR SECOND DAY IN CAPTIVITY and then Luna who is Blue's sister gets carried over to Pyrrhia and then the epilogue of DoD happens.
